*Because you'd better buy her something, head to [Thrillist's V-Day Gifting HQ](#) for more ideas*

Bejewel her with these hand-crafted rings, bracelets, earrings, etc, from a local husband & wife team who make no more than two of each design using a Colombian technique called Mompox Filigree, which involves taking brilliant, high-quality strands of silver and spinning, stretching, twisting, and flattening them, which'll hopefully pave the way for you to do the same to her later that night.

*[Through V-Day, a portion of all sales proceeds will be donated to the Red Cross to help victim's of the earthquake in Haiti. Make a purchase right now at \[LimonVerde.com\]\(#\).](#)*
