Home-spun silver

Atlanta-based online jewelry boutique Limon Verde features handcrafted one-of-a-kind necklaces, rings, pendants and more made from hand-spun silver. The filigree style is Colombian, the native country of designer Kalen Trujillo Redmond's father. We recommend the puzzle piece pendants designed to benefit Madison House Foundation, a Maryland based organization that works to better the futures of adults living with autism. The pendants cost \$66 and 100 percent of proceeds go to Madison House Foundation. Available at www.limonverde.com.
